Motor Identification Key

Somfy Technologies

Radio Technology Somfy

Radio Technology Somfy (RTS) allows wireless radio control of motorized window coverings via the RTS family of controls.

Wired Technology

Offers control via standard AC switching.

Dry Contact

Dry contact input a basic low voltage control. ILT2 range is compatible with almost any home automation systems.

IR-Infrared

By simply plugging an IR sensor to the control input, ILT can be immediately controlled by any Somfy IR remote without any configuration operation.

ILT-Intelligent Limit Technology

The wired, digital, bi-directional bus control allows for more sophisticated functions (positioning of motor in any position, polling the motor status ...) and can provide compatibility with third part control systems in either commercial or residential markets.

RS485

RS485 is another control method that uses a two-wired bus. Due to the open source nature of the RS485 protocol many Building Management Systems and Home Automation Systems use this protocol to communicate to devices. Systems that can use the RS485 connection can be programmed to Somfy RS485 motors or controllers to operate the installation.

As with all Somfy products, motors are backed by a 5 year warranty.

Electronic Limit Switch Unit with Integrated RTS

Includes Somfy patented antenna that is integrated into the power cord for enhanced reception.

Wide Range of Motors Provide Solutions for Every Application:

Fabrication Recommendations:

- Operational noise level is reduced when motor, tube, and mechanical accessories are properly adapted to motorized applications.
- Free play must be minimized between the accessories and the end product tube to ensure quiet performance of the motor.
- Interior Tube Diameter (ID) > 47mm must be respected.
- A motor crown adapter between motor and end product tube is required to ensure concentric operation of motor.
- 500 Series Drive Stop and Screw (9910004) included with Sonesse series motors only, is recommended to prevent noise and drive wheel separation from motor shaft.
- Somfy Soft Clip Drive Wheel Adapters (brown in color) are not recommended.
